# President's Awards, ODK, SicSic, Announced On Recognition Day

JOYCE and JUDY BEDNAR

HOWARD ALDRICH

ROBERT DWORS

## Bednars, Aldrich, Dwors Top Seniors

Former student body vice president Howard Aldrich, basketball star Bob Dwors, and the student government twins, Joyce and Judy Bednar, were announced as the 1965 recipients of the President's Awards Sunday at the Recognition Day ceremonies in the Main Auditorium.

The President's Award are presented each year to the outstanding senior man and woman. This year, for the first time, four were selected.

During Aldrich's four years as an undergraduate, he became only the fifth student in the University's history to win a Woodrow Wilson fellowship. He also received a Danforth fellowship worth free tuition and \$2,200 for living expenses at the University of Michigan.

His most recent award was a grant from the National Science Foundation to continue his study of social psychology or social philosophy. He has maintained a 3.94 accumulative grade average.

Among Aldrich's other activities are membership in Omicron Delta Kappa, men's leadership honorary society, Student Court, inter-Fraternity Council, and Phi Kappa Psi social fraternity.

He also was president of Phi Eta Sigma, national scholarship honorary society for freshman men, and the Sociology Club. Aldrich twice has been listed in Who's Who in American Colleges and Universities.

Bob Dwors captained the Falcons his senior year. He poured in 40 points in his final game against Marshall and ended his career as the University's twelfth-highest scorer of all time with 807 points. He was a unanimous choice for the all-Mid American Conference team.

Joyce Bednar served for a year as president of the Association of Women Students, served her Alpha Xi Delta social sorority as standards chairman, was secretary of the Student Leadership and Service Board, and is a member of "Who's Who in American Colleges and Universities."

Her sister, Judy, is also a member of Alpha Xi Delta sorority. She was secretary of the Student Body, rush and scholarship chairman for the sorority, a recipient of the Florence Currier award, and a member of Book and Motor and Panhellenic Council. She, too,

was selected for "Who's Who in American Colleges and Universities."

Each of the four recipients will receive \$100 and an engraved plaque.

## ODK, National Leadership Society, Selects 2 Seniors, 4 Juniors Sunday

By JOHN LOVE  
Editor

Two seniors and four juniors were tapped early Sunday morning by members of Omicron Delta Kappa, national men's leadership honorary society, to mark their selection into that organization.

The six students were selected in four of the five areas (scholarship excluded) in which ODK chooses its members. The new initiates are Thomas Walton, Jerald Dauer, Dennis Palmer, Jack Winget, James Oliver, and Stephen O'Bryan. All six will be inducted officially into ODK at the initiation ceremony at 5 p.m. Thursday in Prout Chapel. The ceremonies will be followed by a banquet honoring the new members in the Alumni Room.

### THOMAS WALTON

Selected in the area of publications was Thomas Walton, a senior in the College of Business with a major in journalism. He has been the managing editor of the B-G News this year and has held the staff positions of issue editor, summer editor, and assistant issue editor in previous years. Walton is a charter member and vice president of the University chapter of Sigma Delta Chi, national professional journalistic society, and a member of Sigma Phi Epsilon social fraternity. He has a 3.02 accumulative grade average.

### JERALD DAUER

Jerald Dauer, selected by ODK in the area of athletics, is a senior in the College of Liberal Arts majoring in mathematics. He has two varsity letters in track and is captain of the 1965 track team. He holds the University indoor high and low hurdle records and last year was awarded the All-Ohio Track Coaches Award. He has an assistantship in the mathematics department and is a member of Kappa Mu Epsilon math honorary society and Phi Eta Sigma, Liberal Arts honorary society. He has a 2.84 accumulative grade average.

### DENNIS PALMER

Also selected in the area of

THOMAS WALTON

DENNIS PALMER

JERALD DAUER

athletics was Dennis Palmer, a junior in the College of Business with a major in management. He has two varsity letters in wrestling. He was named MAC Wrestling Champion for 1964-65 and the 4-1 Wrestling Champ for 1965. Palmer was awarded a University Scholarship and has a 3.1 accumulative grade average.

### JACK WINGET

A junior in the College of Education, with a major in speech, Jack Winget was selected by ODK in the area of speech, music, drama, and the other arts. Winget had roles in 17 major University productions, participated in the Men's State Forensics Tournament in 1964, and this year received a grant in aid from the speech department. A member of Delta Upsilon social fraternity, he was last year's President of Theta Alpha Phi, national dramatic honorary society. He is also a member of Pi Kappa Delta, national forensics honorary society. His accumulative grade average is 2.95.

### JAMES OLIVER

James Oliver, a junior in the College of Education with a major

in speech, is the Treasurer of the Student Body. He was President of his Sophomore Class Vice President of his Freshman Class, and has served on Student Council for two years. He placed fifth in the Men's State Forensics Tournament. He is President-elect of Alpha Tau Omega social fraternity and in 1963 was chairman of the Homecoming Committee. He was selected in the area of student government, social, and religious affairs. Oliver has a 2.8 accumulative grade average.

### STEPHEN O'BRYAN

Also selected in the area of student government, social and religious affairs was Stephen O'Bryan, a junior in the College of Liberal Arts with a political science major. O'Bryan is the President-elect of the Interfraternity Council. In three years work for IFC, he has served as Executive Vice President, Chairman of the Judicial Board, Chairman of the Expansion Committee, and chairman of the Social Policies Committee. He is a member of Phi Delta Theta social fraternity and has a 2.92 accumulative grade average.

## Airulla, Helwig Revealed As Senior SicSic Members

It's a secret no longer.

James T. Helwig and Philip L. Airulla have been revealed by President William T. Jerome as the senior members of SIC SIC, the University's secret spirit boosting organization.

A finance major in the College of Business Administration, Helwig has a 3.6 accumulative grade point average and is president of Sigma Chi social fraternity and Omicron Delta Kappa national leadership honorary society. He has been president of the freshman and sophomore classes.

Helwig is a member of Who's Who in American Colleges and Universities, Phi Eta Sigma and Phi Kappa Phi, national honor societies; and holds Sidney Frohman and General Motors scholarships. He plans to seek the master of business administration degree at the Wharton School of Finance in the fall.

A journalism major in the College of Liberal Arts, Airulla has been the editor of the B-G News and president of Sigma Delta Chi, the professional journalistic society. He has a 3.0 accumulative grade average and is a member of the Kappa Sigma social fraternity.

A member of Omicron Delta Kappa, Who's Who in American Colleges and Universities, and Pi Kappa Delta, national debate honorary society, Airulla in the past has received the "Outstanding sophomore and junior awards" in the School of Journalism. He has accepted a magazine editorial position with the Merkle Press, Inc., Washington, D.C., and plans to do part-time graduate work at the University of Maryland.

POSING WITH THE REMAINING four members of SIC SIC are Philip L. Airulla, left, and James T. Helwig, the recently revealed senior members of this secret spirit boosting organization.

## In Our Opinion . . .

## An Essential Element

Although many universities virtually do without it, and although it presents a number of complex problems, research is an important tool which a university can use to become great.

Although not an infant, research work at the University has a long way to go before it can be a fully effective tool in the educational process. Industrial Research magazine last month surveyed 150 institutions of higher education which it said were leading in research activity. Although Bowling Green was listed in the report, it was fifth to last of the colleges surveyed in dollars volume of research. The magazine reported that Bowling Green presently spends \$68,000 in research. But this compares poorly with the amount of research being done on many other campuses. The University of Chicago, for example, spends \$142 million a year on research, the University of Michigan spends \$46 million, \$35 million for the University of Wisconsin, and \$55 million for Cornell University. Although such a report, in a way, may sound disheartening, it is reassuring to learn that the University has created a new office of Research Service to provide an impetus to faculty research and to encourage development of research in general.

Research, regardless of the benefits it can provide, presents a number of problems, none of which, however, are insurmountable. One problem is obvious. Research sometimes can interfere with a faculty member's commitment to classroom instruction. Dr. Clark Kerr, president of the University of California, explains the problem: "Teaching loads and student contact hours are reduced. Faculty members are more frequently on leave or temporarily away from campus. A greater amount of teaching falls to teachers who are not members of the regular faculty." Another problem in developing research at a university is one of finance. Research is expensive, perhaps more so than any other university function. And there is often a lack of adequate funds to finance research projects. And then, as Industrial Research magazine states, there is the problem of "research entrepreneurs anxious to build research empires regardless of the consequences."

Indeed, these are all serious obstacles which must be surmounted in developing research programs. But the fact that the problems exist is no support for an argument that research should not be undertaken by a university. Research must be properly controlled and administered so that it does not interfere with education but supplements it. In short, research must be consistent with the goals of education.

But for a university which wishes to someday call itself great, all areas of research must be developed well. A university is a center for the transmission of ideas, but it must also be the center the creation and further development of new ideas. It seems almost purposeless for an institution, such as a university, to assemble intellectual talent and then fail to use that talent to develop new concepts.

It is our hope that the University will increase its concentration on constructive research. We further hope that the newly-created office of Research Services is a step in that direction.

JOHN LOVE

## On The Right

## Administration Bungling Grades

By GEORGE WALLACE  
News Columnist

The aborted "solution" to the problem of senior grades is already showing signs of being a masterpiece of administrative bungling.

The biggest problem seems to be that many faculty members will not be able to administer examinations without cutting from teaching time. The fact that the faculty had no advance warning for the planning of their course outlines and schedules makes the situation even more difficult. Many students are inconvenienced if they are underclassmen in a class that is having its examination the last week of classes. In spite of the rescheduling, many professors will have to work nights right down to the wire in order to meet the deadline.

There does not seem to be much justice either in allowing some students to graduate without taking a final and others being required to take an exam in order to graduate, or in requiring underclassmen to take examinations in courses where seniors are not required to do so.

At base there appear to be two causes for the ensuing chaos. One is that the solution was conjured

up hurriedly and put into effect immediately without allowing time to plan in advance for the next academic year. Rather it was dropped like a bomb in the middle of second semester with no advanced warning.

The other is the assumption whatever is done, no steps must be taken which would cause the least inconvenience to the persons who constitute the problem, and who logically would be expected to bear part if not all of the burden of its solution, namely the seniors themselves.

It would make things far easier on most persons concerned if the graduation date were simply moved ahead a week or however long would be required to process grades. Such a solution would also have the ridiculous attribute of actually solving the problem, but that's too easy an answer isn't it?

With such an arrangement, the seniors would not be so inclined to slough off late in the semester, and the burdens and inequities on other persons would be eliminated. Moreover, that empty week would be an ideal time for no end of senior social functions, both mentionable and not so mentionable.

Voting In Dormitory  
Reflects AWS ApathyBy MARGERITE VAUCLAIR  
News Staff Writer

"Appalling." An example of "hideous apathy. A farce."

So stated one woman from East Hall, Thursday night, regarding the lack of concern which women seemed to display when asked to vote on the AWS constitutional referendum.

The revised constitution had been posted in all residence halls one week prior to the meeting, and all women had been requested to read it before

it be concluded that their work has been in vain?

One woman compared East Hall's apathy to a "miniature study of apathetic voting on the national basis. Is this the kind of voter," she questioned, "that American colleges are training and turning out?"

Of the 393 women gathered in the cafeteria, only 30-or-so remained to discuss the referendum. East's president had stated that those who had read it could vote and then leave. Thus, the rest swarmed out of the dining hall after many had voted straight-ticket "yes" or "no," depending on their mood.

AWS is supposed to be an organization of and for women students. But one woman commented that "No one reads that stuff (referendum) and no one cares. It won't affect us directly. We read the stuff about hours changes, but that's all."

One change women "voted" on was a provision to change the method of collecting the \$1 AWS fee. Will this example not affect women students directly? It seems that that issue, in particular, had raised quite a furor on campus earlier this year.

As exemplified by East Hall, however, when it comes to taking final action on changing AWS rules, students suddenly seem to lose interest. It has been reported by the elections chairman that no commuters voted.

AWS has spent considerable time revising the constitution for the benefit of women. If their work is met by such apathetic reactions by so many, however, may

## AWS Selects Models

Twenty University women were selected recently as models for the annual fall style show of the Association of Women Students. Those chosen include:

Anette Bellavek, Edelgard Bopple, Nancy Boynton, Diane Cape, Jacqueline Daniels, Jil Dikeman, Lynda Dregalla, Carolyn Estep, Gay Euler, Linda Fabian, Barbara Gindlesberger, Karen Horton, Veronica Kostic, Jennifer Lowe, Carol McCutcheon, Shirley Novotny, Laurel Pippert, Diane Roeder, Barbara Sanders, and Linda Steva.

Commentators will be Eleanor Sacchi and Susan Meade.

## Report Postponed

The Faculty Senate ad hoc committee studying the advisability of admitting the press to Senate meetings has reported they feel there is insufficient time remaining to make a report.

A report will be issued in the fall, said Dr. Grover G. Platt, chairman of Faculty Senate, in a letter read to Student Council by Student Body President Jack Baker at its May meeting.

The committee was appointed when Council passed a resolution asking that the B-G News be allowed to attend Senate meetings and to report actions concerning the students.

Previously, the News had been rebuffed in its attempts to have a reporter at the meeting.

THE SENATE committee is composed of Dr. Peggy Hurst, chairman, Dr. Elfreda M. Rusher, Dr. Jeff Clark, and Dr. Donald S. Longworth.

In other action, Baker read a memorandum from President William T. Jerome concerning a resolution passed by Council several weeks ago.

The resolution asked that fines levied for classes cut between 8 a.m. and noon, Tuesday April 13, be waived. According to the resolution it generally was not known that the penalty period had been extended the extra four hours at Spring Recess.

President Jerome said in his letter that he agreed with Council and that he has authorized the Bursar's office to refund fines collected for that period. Students wishing to get their money back must go to the Bursar's office, he said.

A RESOLUTION, urging students living in upper-class residence halls next fall and having a minimum 2.5 accumulative point average consider running for dormitory representative to Student Council in the fall elections, passed unanimously.

The resolution was introduced by John Hartman, junior representative.

The remainder of the meeting was concerned with the approval of appointments to Student Body

# Netters Finish 4th In MAC Competition

Despite their poorest finish in five years, coach Robert Keefe's netmen finished fourth at the MAC tennis championships played at Ohio University last weekend.

Bowling Green's four top singles players, Jim Dean, captain Tom Manning, Roger Newman, and Marc Rinehart, each won their first round matches. Manning and Rinehart teamed to upset Toledo's number two doubles team of Eric Alleyne and Tom Willoughby 9-7, 0-7, to give the Falcon netters a total of six points and a fourth place finish.

Well-balanced Western Michigan won the team championship with 21 points, but Toledo's Dean Eisner proved undefeatable as he captured the number one singles title. Eisner and teammate Jay Greuenbaum bested Western's Mike Gill and Mike Goodrich 8-10, 7-5, 6-4, for the doubles title.

The Rockets finished second with 16 points followed by Miami with 15, Bowling Green, Kent State 2, Ohio University 1, and winless Marshall.

The Falcons ended their season with a dismal 3-10 record, the worst finish by the netmen since 1960 when they recorded a 1-9-1 mark.

## Falcons Score 9-8, 7-2 Victories

# BG Throttles Rockets Twice

By GEORGE BRAATZ  
News Sports Editor

The Falcon baseball team scored two Mid-American Conference victories over the Rockets of the University of Toledo last week end.

BG shaded TU in Friday's opener, 9-8 at Steller Field. Then, proving that the home field was no advantage, the Falcons whipped the Rockets 7-2 at Toledo Saturday.

Coach Dick Young's crew squeaked out the win in Friday's game by adding the winning run in the bottom of the eighth inning. Bob White led off the inning with a single, and then moved to second after a fly ball by Tony Trent was caught. After advancing to third on an error, White scored as Ted Rose dropped a squeeze bunt down the first-base line.

Trent was the big hitter in the game for the Falcons. He collected three hits, a single, a double, and a homer. Trent had a slow start in the hitting department early this season but has really put on a barrage of hitting lately.

Two hits by White, two hits and two runs batted in by Wayne Burdette, and two more RBI's by War-

ren Baird highlighted the Bowling Green attack.

Southpaw Russ Jaques started the game, but was relieved by Morris Beard, who received credit for the victory. Although he did not get credit for the loss, Bill Backensto, TU pitcher and also basketball star during the winter, could not control the BG bats like he has done to many other teams this spring, including powerful Ohio University.

In Saturday's game, Bud Burkle seemed to have the situation under complete control from the start as the Falcon pitching ace hurled the entire game allowing the Rockets just two runs and only 6 hits.

Tony (The Tiger) Trent again was the leader in Bowling Green's run production as he knocked in three runs and collected two hits in four trips to the plate.

Leftfielder Bob White also contributed greatly by adding three hits in five trips, scoring three runs, and batting in one. Stan Evans and Ted Rose each had two hits to aid the Falcon cause also.

Toledo was hurt in both the weekend games by the same factor that has been bothering Bowling Green all season—defense. The Rockets committed five errors in each game. BG misused three times Friday, but played errorless ball Saturday.

The Falcon diamondmen completed their MAC schedule, ending with a 8-2 record. They finished third in the conference behind champion Ohio University, and second-ranked Western Michigan. TU ended with a 2-10 mark.

Bowling Green will conclude the 1965 season this afternoon at Steller Field against Cincinnati.

BOX SCORE	
Toledo	400 000 220-8 11 5
Bowling Green	101 041 11x-9 11 3
Winning Pitcher—Beard	
Losing Pitcher—Kimmelman	
Bowling Green	001 111 030-7 11 0
Toledo	000 020 000-2 6 6

Losing Pitcher—Hackenberg	

## Intramurals

Intramural softball play-offs will begin today with the dormitory champion playing the off-campus champion for the Independent Championship and League I will battle League II for the Fraternity "A" championship.

Tomorrow the independent champion will face the fraternity champion for the all-campus championship and the winner of the Fraternity "B" League will play the Independent runnerup. All games begin at 5:45 p.m.

# Williams Leads Falcons To 2nd-Place Finish In MAC Championships; WMC Takes Crown

By JIM MEIGHAN  
News Sports Writer

Henry Williams, the sophomore flash, led the Falcon tracksters to second place in the Mid-American Conference Track Championship at Ohio University, Saturday.

The Bowling Green trackmen piled up 54 points to defeat Miami University, Kent State U., Toledo U., Ohio U., and Marshall U. Only strong Western Michigan University was able to out-score the Falcons, as they tallied 62 points and the win.

Williams sprinted to two MAC records on his own then anchored both Falcon record setting relay teams. Henry galloped the 100-

yard dash in 9.5 seconds to grab first for the Falcons and tie MAC record.

Catching his wind, Henry flashed the furlong in 21.7 seconds to establish a new MAC 220-yard dash record. But his phenomenal day was not complete, as he still was to be part of two more MAC records.

This time Henry teamed up with Tom Wright, Bob Clasen, and Ralph Canady to knock 1.2 seconds off the old MAC mile relay record by covering the mile in 3:12.4 seconds.

Next Williams joined Bob Pratt, Tom Wright, and Rich Greenburg to set a new MAC record in the

## From The Pressbox

# Falcons A Go-Go?; Bo Says 'Ugh' About Stew

By LARRY DONALD  
News Sports Writer

NOTES AND QUOTES—With all due respect to public address announcer Jim Hof and his uncanny ability to hang a nickname on the Bowling Green basketball and football teams, such as "the Fighting Falcons" we have a new tag for these two which could antiquate his former title.

After watching the spring football game and looking at the basketball roster for next year the most adequate narration heard so far is—Falcons A Go-Go.

—0—  
If Warren Scholler is disappointed that Toledo DeVilbiss' basketball ace Dave McClellan decided to enroll at the University of Michigan, he isn't showing it.

The dapper Falcon skipper mentioned his suspicion that too much competition at Bowling Green with next year's basketball team may have scared McClellan off to the water wonderland.

Of course this is only a suspicion.

—0—  
Much attention has been given to Bowling Green's ram-charging fullback Stew Williams, particularly by the opposition. Coaches have

been varied in their description of Williams, but the most emphatic is Miami's Bo Schembechler.

After last fall's Miami-BG game Schembechler was holding court with the reporters, when suddenly a reporter popped into the room and asked for Schembechler's description of Williams again.

Bo looked up and said "ugh" which the reporter noted on his pad and left.

—0—  
If this year seemed to have its disappointing moments, rest assured that next year will have less disappointments, according to our crystal ball.

The old theory, "the third time is a charm" will take care of Bowling Green problems with Ohio U. on the football field.

Then too, it is virtually assured that the basketball team won't go seven games before registering a victory. Especially since Ball State is here for the opener.

As for the baseball team, all that can be foretold is that Ohio U. will not score 36 runs in their two games next year. The Almanac predicts rain for the first day.

—0—  
In this day there is much discussion about the dumb athlete. In most cases this dumb athlete has vanished. But from a Mid-American university, which necessarily must remain anonymous, comes this tale.

It seems that a star tackle on the football team was having academic problems and was told he would be unable to play in the big championship game with Bowling Green because he was failing geography.

The football coach pleaded with the dean to give the man another test and if he passed it, to let him play against BG.

The player was summoned to the dean's office and given a one question test. The dean asked him, "What is the capital of Ohio?"

The player thought and thought and finally said "Delaware." The coach slumped in his seat and the player hung his head, but the dean smiled and replied, "Well, Delaware is about 20 miles from Columbus and 20 from 100 is 80 which is a passing mark and he can play."

## BG Women Netters Place in Tourney

Bowling Green placed second in the All-State Women's Tennis Tournament on campus last week end. Miami University finished first with 20 points, while Bowling Green totaled 14 points.

Emily Bowen of Miami placed first in the singles, with Joan MacCracken of Dennison University winning the consolation. Joan Franklin of Bowling Green placed third in the singles.

Central State's Barbara Aron and Beverly Levison placed first in the doubles while Beverly Kuck and Fay Zuccato of Bowling Green won the consolation.

Rain and high winds hindered the playing which began Friday and continued through Sunday.

Twenty Ohio colleges and universities were represented in the tournament. Dr. Agnes M. Hooley, professor of health and physical education and advisor of the Tennis Club was in charge of arrangements for the tournament.

## TESTS, AND HOW THEY GREW

Just the other night I was saying to the little woman, "Do you think the importance of tests in American colleges is being overemphasized?" (Incidentally, the little woman is not, as you might think, my wife. My wife is far from a little woman. She is, in fact, nearly seven feet high and mantled with rippling muscles. She is a full-blooded Ogallala Sioux and holds the world's shot put record. The little woman I referred to is someone we found crouching under the sofa when we moved into our apartment back in 1928, and there she has remained ever since. She never speaks except to make a kind of guttural clicking sound when she is hungry. To tell you the truth, she's not too much fun to have around the house, but with my wife away at track meets most of the time, at least it gives me someone to talk to.)

But I digress. "Do you think the importance of tests in American colleges is being overemphasized?" I said the other night to the little woman, and then I said, "Yes, Max, I do think the importance of tests in American colleges is being overemphasized." (As I explained, the little woman does not speak, so when we have conversations, I am forced to do both parts.)

But I digress. To get back to tests—sure, they're important, but let's not allow them to get too important. There are, after all, many talents which simply can't be measured by quizzes. Is it right to penalize a gifted student whose gifts don't happen to fall into an academic category? Like, for instance, Finster Sigafoos?

She is a full-blooded Ogallala Sioux...

Finster, a freshman at the Wyoming College of Belles Lettres and Fingerprint Identification, has never passed a single test; yet all who know him agree he is studded with talent like a ham with cloves. He can, for example, sleep standing up. He can do a perfect imitation of a scarlet tanager. (I don't mean just the bird calls; I mean he can fly south in the winter.) He can pick up BB's with his toes. He can say "toy boat" three times fast. He can build a rude telephone out of 100 yards of string and two empty Personna Stainless Steel Razor Blade packages. (This last accomplishment is the one Finster is proudest of—not building the telephone but emptying the Personna packs. To empty a Personna pack is not easily accomplished, believe you me, not if you're a person who likes to get full value out of his razor blades. And full value is just what Personnas deliver. They last and last and keep on lasting; luxury shave follows luxury shave in numbers that make the mind boggle. Why don't you see for yourself? Personnas are now available in two varieties: a brand-new stainless steel injector blade for users of injector razors—and the familiar double-edge stainless steel blade so dear to the hearts and kind to the kissers of so many happy Americans, blades so smooth-shaving, so long-lasting that the Personna Co. makes the following guarantee: If you don't agree Personna gives you more luxury shaves than Beep-Beep or any other brand you might name, Personna will buy you a pack of whatever kind you think is better.)

But I digress. Back to Finster Sigafoos—artist, humanist, philosopher, and freshman since 1939. Will the world ever benefit from Finster's great gifts? Alas, no. He is in college to stay.

But even more tragic for mankind is the case of Clare de Loon. Clare, a classmate of Finster's, had no talent, no gifts, no brains, no personality. All she had was a knack for taking tests. She would cram like mad before a test, always get a perfect score, and then promptly forget everything she had learned. Naturally, she graduated with highest honors and degrees by the dozen, but the sad fact is that she left college no more educated and no more prepared to cope with the world than she was when she entered. Today, a broken woman, she crouches under my sofa.

© 1965, Max Shulman

Speaking of tests, we, the makers of Personna®, put our blades through an impressive number before we send them to market. We also make—and thoroughly test—an aerosol shave that soaks rings around any other lather: Burma Shave®, regular and menthol.

# 17 Tapped, Inducted Into Cap And Gown

At 4 a.m. Friday, 17 University women were tapped and initiated into Cap and Gown, women's leadership honor society. The five graduating seniors and 12 juniors were publicly capped at Recognition Day ceremonies Sunday.

High scholarship, successful engagement as a student leader, exceptional service to the University, and high character and personality are the qualifications for membership, according to Miss Jackie Gribbons, assistant dean of women.

The new members are:

Sally Althoff, Alpha Xi Delta social sorority, has been corresponding secretary, second vice president, and is the incoming first vice president of the Association of Women Students. She has a 4.0 accumulative grade average.

DONNA BLEVINS, 3.3 accumulative grade average, is a member of Chi Omega social sorority, and the Student Leadership and Service Board. She has also served on Student Council.

Peggy Conrad, member of Alpha Chi Omega social sorority, is treasurer of AWS and has been a member of the executive, judicial, and legislative boards. Miss Conrad

has a 2.9 accumulative grade average.

Lonna Dangler, Alpha Xi Delta social sorority, has been a major-ette for the University Marching Band and a member of Angel Flight. She has a 3.7 accumulative grade average.

MARSHA DODDS, 3.6 accumulative grade average, is president of Panhellenic Council and a member of Chi Omega social sorority, Junior Class Cabinet, and Student Council.

Barbara Froelich, vice president of Alpha Delta Pi social sorority, has a 2.8 accumulative grade average. Miss Froelich has served as chairman of the House Services Committee of UAO and as senior representative to AWS.

Linda Holman, Alpha Chi Omega social sorority, has been a member of the Student Orientation Board and chairman of the Auditions and Bookings Committee of the UAO. Miss Holman has a 2.9 accumulative grade average.

SUSAN HORTH, president of Delta Gamma social sorority, has served as secretary of the freshman and sophomore class and as junior and senior representative to Student Council. Miss Horth has a 2.9 accumulative grade average.

Kathryn Krause, 3.0 accumulative grade average, is corresponding secretary of Chi Omega social

sorority. Miss Krause has also served on Student Cabinet and the Student Charities Board.

Janice Kuchta, corresponding secretary of Gamma Phi Beta social sorority, has a 3.1 accumulative grade average and has been a member of the Junior Class Cabinet and Angel Flight.

MARGARET MATHAUER, outstanding Greek woman of the year, is a member of Gamma Phi Beta social sorority and has served on Student Council and has been treasurer and president of Panhellenic Council. Miss Mathauer has a 2.8 accumulative grade average.

Marcia Mauntler has served on the AWS judicial board and as first vice president of Panhellenic Council. Newly-elected president of Alpha Phi social sorority, Miss Mauntler has a 3.2 accumulative grade average.

Linda Peiblow, newly-elected president of AWS has served as sophomore and junior representative to Student Council and is president-elect of Alpha Chi Omega social sorority. Miss Peiblow has a 3.7 accumulative grade average.

CHARLENE PHILLIPS, 3.5 accumulative grade average, has served as corresponding secretary and president of Alpha Xi Delta, social sorority, and is the newly-appointed chief justice of Student Court.

Carlean Reardon, Alpha Xi Delta social sorority, is editor of the Key and has been editor of the AWS Handbook. Miss Reardon has a 2.7 accumulative grade average and is listed in "Who's Who in American Colleges and Universities."

NANCY SCHWARZENBERG, 3.0 accumulative grade average, has been corresponding and recording secretary of Chi Omega social sorority and chairman of the Student Leadership and Service Board.

Sally Whitmore, first vice president of Delta Gamma social sorority, was vice president and direc-

tor-at-large of UAO, and a member of the junior class cabinet. Miss Whitmore has a 2.8 accumulative grade average.

## ODK Names Dr. Rahdert Man-Of-Year

Dr. Karl G. Rahdert has been named the 1965 ODK Man-of-the-Year by the Beta Tau chapter of Omicron Delta Kappa, national leadership society for men.

He is the director of graduate studies in business administration and a professor of business administration.

DR. RAHDERT received his B.S., M.B.A., and Ph.D. from Indiana University and has served on the staff of both Indiana and Ohio State Universities.

Before coming to the University, Dr. Rahdert served as the assistant to the president of a large manufacturing firm, and manager of personnel administration and development at General Electric Corp.

He came to Bowling Green in 1960 as associate professor of business administration and in 1963 became director of graduate studies in business administration.

DR. RAHDERT has been a member of Faculty Senate, Graduate Council, Academic Council, Computer Committee which established the Computer Center, and Scholarly Advancement Committee.

In the field of research, Dr. Rahdert has been working on a long-range planning study and has done consulting work for several industries.

## 5 Frohman Awards Given

Sidney Frohman Scholarship Awards were presented to John Klippel, College of Liberal Arts; Gary Lickfelt, College of Business Administration; Barry Morstain, College of Liberal Arts; William Mouer, College of Education; Kenneth Stafford, College of Liberal Arts.

The Sidney Frohman Scholarship of \$400 is presented to juniors on the basis of scholarship, high character, constructive leadership, unselfish service, and all-round evidence of outstanding future contributions to the general welfare of the nation.

KLIPPLE is a chemistry and math major, member of Alpha Epsilon Delta, pre-medical honorary society; and a member of Phi Eta Sigma, national scholarship honor

society for freshman men. He is president-elect of the Union Activities Organization.

Lickfelt is a member of Phi Eta Sigma.

Morstain is a member of Beta Beta Beta biology honorary society; a member of the ROTC Drum and Bugle Corps; was on the Dean's List and is a member of Phi Eta Sigma.

Mouer is a member of the InterVarsity Christian Fellowship and Phi Mu Alpha Sinfonia, national professional society for men in music.

STAFFORD is a mathematics major, member of Kappa Mu Epsilon, national recognition society in mathematics; Omicron Delta Kappa; Phi Eta Sigma; and a university Scholarship winner.

## Business Prof Cooke Earns Distinguished Faculty Award

Dr. Gilbert W. Cooke, professor of business administration, was named recipient of the Samuel S. Casper Distinguished Faculty Award at the annual Recognition Day ceremonies Sunday.

Dr. Cooke won the award, which includes \$250, for "superior teaching ability, profound concern for the intellectual growth of students, contributions to the growth of the University, and efforts to dissem-

inate the specialized insight of a professor's discipline among the general public."

ACTIVE ON community as well as professional levels, Dr. Cooke is past-president of the Bowling Green City Board of Education. He served on the City Planning Commission for six years and is a member of the Chamber of Commerce.

In 1960 he was given the Bowling Green Outstanding Citizen Award.

He joined the University faculty in 1937 and is one of the original faculty members of the College of Business Administration.

He has been an adviser for the Alpha Phi Omega service fraternity since 1948 and is past treasurer of the United Christian Fellowship.

DR. COOKE has written several text books and magazine articles on business management and finance.

He received his B.S. in Ed. and M.A. from the University of Minnesota and his Ph.D. from the University of Wisconsin.

Parks anywhere

A Honda is a slim 24" at the widest point. This narrows down the hunt for a parking space considerably. You can slide into almost any shady spot. Like just outside of English Lit. Hondas fit into slim budgets too. Prices start about \$215\*. Gas goes farther, up to 200 mpg on some models. And cutting your wheels in half does just about the same thing for insurance costs. Or more.

This is the sporty Super 90 with its distinguished T-bone frame. Tops 60 mph. Just one of the 15 Honda models that make other campus transportation strictly for the birds.

See the Honda representative on your campus or write: American Honda Motor Co., Inc., Department C1, 100 West Alondra Boulevard, Gardena, California 90247.
